

Theodore Belo

Full-Stack Developer — Entry-Level

Toronto, Ontario · (647) 998-1184 · theo.belo25@gmail.com

LinkedIn: <https://www.linkedin.com/in/theodore-belo/> · Portfolio: <https://theocodes.dev>

SUMMARY

Full-stack developer building production web applications with TypeScript, React/Next.js, and Node/NestJS. Background in client-facing web development (Forge Media) plus hands-on portfolio work: monorepo apps with shared Prisma models, REST APIs with OpenAPI, and a deployed Next.js + CMS site with third-party integrations. Seeking an entry-level full-stack role to grow on a product team; comfortable with code review, Git workflows, Docker, and collaborating with design and stakeholders. Toronto-based; open to remote or hybrid.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, C#

Frontend: React, Next.js (App Router), Angular, responsive design, Tailwind CSS, WCAG/accessibility

Backend & APIs: Node.js, Express, NestJS, ASP.NET Core, REST, GraphQL, OpenAPI

Data & DevOps: PostgreSQL, Prisma, SQL/NoSQL, Docker, Git/GitHub, Ansible

PROJECTS

Nudge — Project Management Platform — <https://nudge.theocodes.dev/>

- pnpm + Turborepo monorepo: Next.js (App Router) frontend and NestJS API sharing Prisma types.
- Kanban-style UI with modular REST API, validated DTOs, JWT auth, OpenAPI docs, health checks, and rate limiting.

CaseFlow — Case Management Platform — <https://caseflow.theocodes.dev/>

- Full-stack app with Angular, ASP.NET Core, and PostgreSQL; JWT auth and role-based workflows.
- Backend structured for maintainability with rate limiting, health endpoints, and container-ready deployment.

Kenzerama Productions — Company Website — <https://kenzeramaproductions.com>

- Next.js, TypeScript, Tailwind, shadcn/ui, Directus CMS, MDX blog, Mux video, Instagram OAuth, reCAPTCHA v3.
- Docker-based deployment on self-hosted PaaS; custom Directus extensions and schema promotion workflows.

PROFESSIONAL EXPERIENCE

Kenzerama Productions — Owner / Full-Stack Developer · Toronto · 2020 – Present

- Designed and built the company marketing site (Next.js, TypeScript, Tailwind) with CMS-driven content and video delivery.
- Integrated third-party APIs (Instagram, Mux, reCAPTCHA) and server routes; own requirements, deployment, and ongoing enhancements.
- Manage client relationships and end-to-end delivery for wedding film projects alongside technical ownership of the web platform.

Stellargrade — Suite Commerce Developer / NetSuite Consultant · Montreal · 2023 – 2024

- Built SuiteCommerce/SCA customizations and NetSuite automations (SuiteScript, SuiteFlow, SuiteBuilder).
- Developed RESTlet and SuiteTalk integrations connecting NetSuite with e-commerce and CRM systems.
- Participated in full lifecycle: requirements, build, UAT, deployment, and post-go-live support.

Forge Media & Design — Web Developer · 2020 – 2023

- Developed and maintained responsive client websites using HTML, CSS, JavaScript, PHP, and CMS platforms.
- Collaborated with designers and marketers to ship campaign sites with analytics, forms, and email integrations.
- Performed bug fixes, content updates, and cross-browser/mobile QA across a portfolio of client sites.

EDUCATION

Juno College of Technology — Front-End Web Development Bootcamp · Toronto · 2019

York University — Bachelor of Commerce · Toronto · 2013
